

**RaQualia**  
innovators for life

**EP<sub>4</sub> Receptor Antagonist for  
Acute Post-Operative Pain**  
**Worldwide Partnering Opportunity**

# 1. Executive Summary

- RQ-00000007 provides a novel MOA, supported by non-clinical and clinical data demonstrating efficacy in chronic inflammatory pain (OA pain)
- Significant medical need exists for acute post-operative pain (POP)
- POP represents a strategic market entry point for RQ-00000007 which is expected to grow significantly
- There are no competitive EP4 antagonists in development for POP and chronic inflammatory pain
- Optimal value can be realized by strategic lifecycle management focusing on acute pain, additional parenteral formulation, and parallel development to access the OA/chronic pain market
- Intellectual Property: Composition of matter expiry 2021, Japan, North America, major EUs, and BRICs

## 2. Table of Contents

Title	Slide No.
1. Executive Summary	2
2. Table of Contents	3
<b>Overview and MOA of EP4 Antagonist</b>	
3. EP4 Antagonist: Improved Potential for Treating Pain	5
4. Potential for Improved Safety Profile vs. NSAIDs/COXIBs	6
<b>Clinical Results and Indication Strategy</b>	
5. RQ-00000007: Demonstrated Clinical Efficacy/Safety in OA Pain	8
6. Acute Post-Operative Pain Provides Market Entry Opportunity	9
7. Clinical Development Plan Supports 2016 Market Launch	10
<b>Commercial Opportunity</b>	
8. Current Therapies for Post-Operative Pain	12
9. Post-Operative Pain Growth Prevalence	13
10. Medical Needs	14
11. Target Product Profile	15
12. Additional Upside Exists Beyond Acute Post-Operative Pain	16
<b>Appendix</b>	
<b>Compound Information &amp; Non-Clinical Results</b>	
13. Compound Information	18
14. Non-Clinical Pharmacology	19~23
15. Non-Clinical Pharmacokinetics	24
16. Non-Clinical Pharmacokinetic Studies	25
17. Non-Clinical Safety	26
18. Non-Clinical Safety Studies	27, 28
<b>Clinical Studies and Results</b>	
19. Clinical Studies	30
20. Phase 1 Profile of RQ-00000007	31, 32
21. Phase 2 Profile of RQ-00000007	33
22. Clinical Studies Summary	34
<b>References</b>	
23. Publication List of RQ-00000007	36
24. Other Publications	37
